The Power of One

Founded in 1974, more hospitals, municipalities, government agencies, universities and businesses trust their technology systems to SIGNET than any other technology provider in New England. Our strategic supplier relationships combined with our in-depth product knowledge enables us to deliver customized solutions at a cost savings to our clients.

- Personalized, responsive service
- Customized engineering solutions
- In-depth technology product knowledge
- Security-cleared, product-certified technicians

Who is SIGNET?

Founded in 1974, SIGNET Electronic Systems Inc. (SIGNET) has grown from a one-person installation services contractor to a 160-person complete technology solutions provider. From design, engineering and installation of a fully independent critical technology system to remote monitoring services, SIGNET delivers comprehensive technology expertise in the areas of communications, security, healthcare communications, audio visual, wireless connectivity, mission critical technologies program management and service. SIGNET Remote Smart is a next generation network operations center (NOC) located at SIGNET's Norwell, Massachusetts, headquarters. SIGNET is one of a select few ISO 9001-certified technology solution providers with a dedicated network operations center committed to mission critical solutions.
