- Remote Smart Proactive Plus+

**Healthcare specific*

Priority Response Times

SIGNET’s ‘Priority Response Times’ ensures that SIGNET provides clients and partners with the means to give an issue the necessary attention. When requesting a service ticket, it is important that the appropriate priority is assigned to reflect the current service impact. Based on the assessment of urgency and impact, the chart below can be used to assign the appropriate priority level:

Priority 1:
Total system outage, resulting in significant interruption to business and no work around is available.

Priority 2:
System performance or business operations are severely degraded. System is still operational but with noticeable impairment. Business operations can continue and impact to security/personnel is with limited risk.

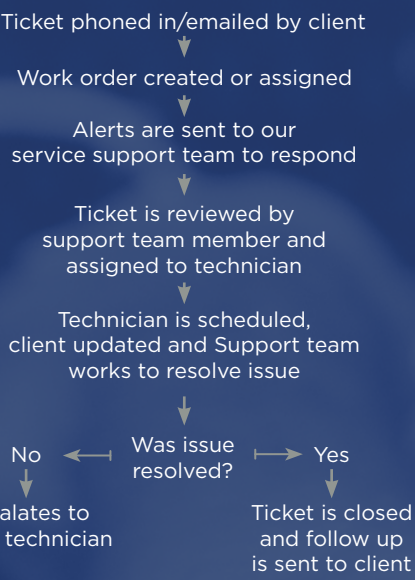

Priority 3:
Minimal overall impact to business, system operation or very low security risk. Includes critical end point failures.

Priority 4:
General support calls, trouble tickets, non-critical end point failure, or moves add changes requests.

Service Request Process

Standard Business Hours
8am-5pm, Monday-Friday
servicegrp@signetgroup.net
or 800.444.9614 option 1

Non-Standard Business Hours
After 5pm, Monday-Friday
Weekends and Holidays
